

2019 NSW Post-School Destinations and Experiences Survey

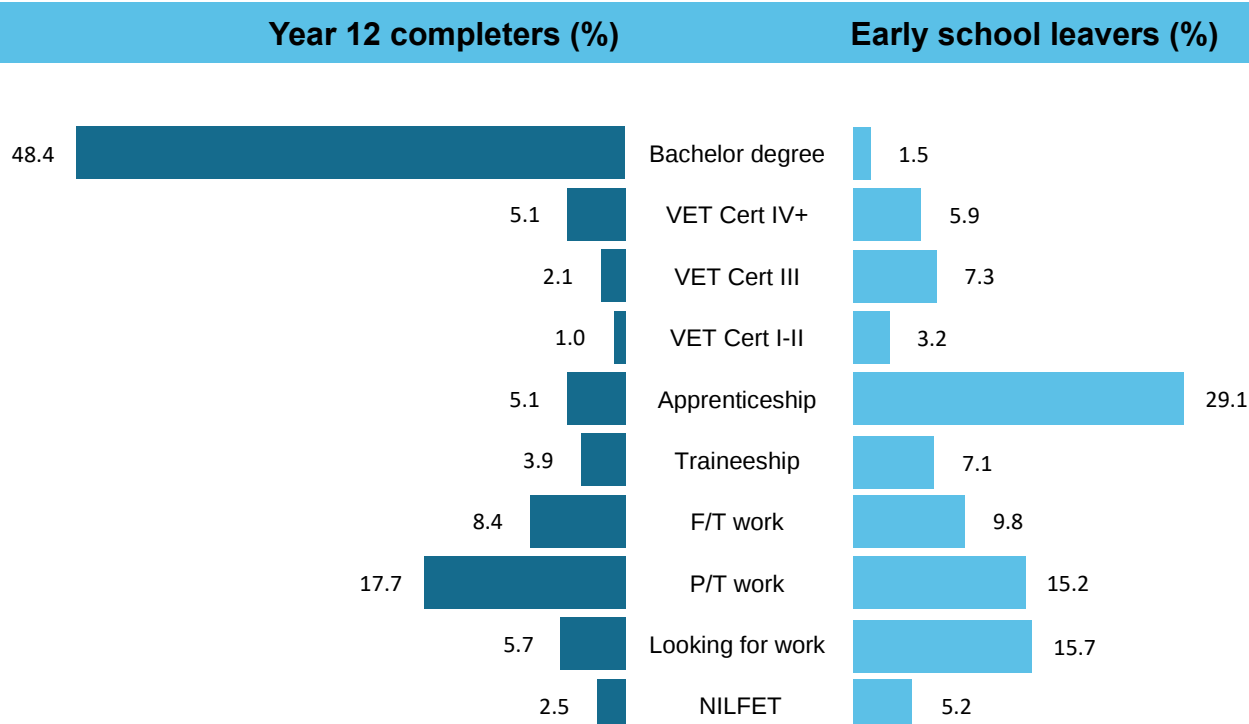

Comparison of Year 12 completers and early school leavers

The NSW Post-School Destinations and Experiences Survey collects information about students' main destination¹ in the year after completing Year 12 or leaving school. We spoke to 18,777 Year 12 completers and 6,135 early school leavers.

This fact sheet provides a brief overview of the differences between NSW Secondary School Students who completed Year 12 in 2018 and those who left school in 2018 before finishing Year 12 (known as early school leavers).

Main post-school destination

Year 12 completers were more likely than early school leavers to be in some form of education or training (65.7% compared with 54.2%). Close to half of Year 12 completers were undertaking a Bachelor degree, whereas this was the least common destination for early school leavers.

Early school leavers were more likely than Year 12 completers to be in the following destinations:

- Apprenticeships
- Traineeships
- VET Certificate I-II
- VET Certificate III
- Working full-time
- Looking for work
- Not in the labour force, education or training (NILFET)

1. A total of ten post-school destinations were defined from responses to a number of items relating to participation in further education and current employment. This classification system is a hierarchical classification system, which prioritises education related post-school destinations over participation in employment. As such, it represents a young person's main destination since leaving school.
