

Schools: Language Diversity in NSW, 2020

LBOTE enrolments

In March 2020, 63.1% (519,326) of students enrolled in NSW government schools came from homes where English was the only language spoken. More than a third (36.9%, 304,187) of students came from homes where languages other than English were spoken (Figure 1) by either the students themselves and/or at least one parent or carer.

This was a noticeable increase from 2019, when 35.9% of NSW government students came from language backgrounds other than English (LBOTE). The proportion of LBOTE students has grown steadily from 29.4% in 2010, an increase of 7.5 percentage points in ten years.

Definitions

LBOTE

Language background other than English: students from language backgrounds other than English are those in whose home a language other than English is spoken by the student, parents, or other primary caregivers.

For students where multiple languages are spoken at home, priority is given first to the primary language spoken by the student and then to that spoken by those caregivers recorded on enrolment forms and in the department's Enrolment Registration Number system (ERN) as parent 1 and parent 2 (in that order).

Within groups from particular language backgrounds, students may come from different countries, have varying levels of literacy in their first language, be multilingual, speak English with varying levels of proficiency, have differing prior schooling experiences, and represent various socio-economic and family circumstances.

Explanatory notes

The census of students from language backgrounds other than English (LBOTE) was conducted on 6 March 2020 in all NSW government schools, including preschools, intensive English centres and distance education centres.

Since 1996, information on LBOTE students has been collected in the first half of the school year. Until 2012 comparative enrolment information for all students was extracted from the School Entitlement System (February enrolment data). From 2013, comparative enrolment information for all students was extracted from the Enrolment Registration Number (ERN) system during March, at the time the LBOTE data was collected.
