Introduction

This Quick Reference Guide outlines the steps for completing the August 2026 Census. For detailed information on completing the census, see the online help in the Early Childhood Contract Management System (ECCMS). To open the online help, click a **Help** icon  on the top right corner of a window or section.

For help with data entry, call the NSW Department of Education data collection helpline on 1300 951 381. (Please note that mobile phone calls may be charged at a higher timed call rate.) Or email your enquiry to ececcollection@det.nsw.edu.au

For help with logging into ECCMS or funding enquiries, email ecec.funding@det.nsw.edu.au

About the 2026 census

Service location operating hours, child data and staff data from the 2025 census, have been carried over into ECCMS. To complete the 2026 census, you need to check the carried over service details and record all the required service location information. That information includes whether your service provides health and development checks for 4-year-olds and what your service's standard daily fees are.

Next you can delete records for children who were not enrolled and staff who were not employed during the representative fortnight. Then you should review rolled over child and staff data and create records for newly enrolled children and new staff. After this you must record enrolment and attendance days for all children enrolled during the representative fortnight, and also record teaching days for all staff during the representative fortnight.

What's new in this census?

The staff main role categories have been updated to better align with the National Workforce Census (NWC) classifications. As part of this change, some existing role categories have been renamed and refined to provide clearer distinction between leadership, teaching and educator roles.

In particular:

- “Assistant/Aide” has been updated to “Educator/Early Childhood Educator”
- The previous combined category “Group leader/teacher” has been separated into two distinct categories: “Group leader” and “Early Childhood Teacher”

Services should review staff roles carefully and select the category that best reflects each staff member's primary responsibilities at the service.

Census dates for 2026

3 August – 14 August 2026

ECCMS will be open for data entry from Monday 20 July to Friday 28 August 2026.

You are required to enter data for the representative fortnight of Monday 3 August to Friday 14 August 2026.

For a summary of how to complete the 2026 Preschool Census, refer to the [Overview of recording census data](#) section. For detailed information about recording data in the 2026 Preschool Census, read all of this guide.

Overview of recording census data

1. In the Preschool Census Service List, if more than one service displays, click the service that you want to enter census data for.

The service's details display on the **Main Details**, **Service Location** and **Census Submission** tabs.

A service may have one or more service locations. Many services will have only one service location.

2. Click the **Service Location** tab.
All of the service's service locations display, as well as the four service location tabs (**Service Location Details**, **Service Location Operating Details**, **Child** and **Staff**).

On the **Service Location** tab you can also see the **Status** of the service location, the number of children enrolled and the number of staff. These numbers include children and staff carried over from the August 2025 census and any newly enrolled children and any newly recorded staff.

New services who have not yet entered census data into ECCMS will have no rolled over data.

3. If more than one service location displays, click the service location that you want to enter census data for. The service location's details display on the **Service Location Details** tab.

A centre-based service can only enter census data for one location. A mobile service that has more than one service location (also referred to as 'venues') listed must record census data for each of those service locations.

If the service has only one service location listed, you do not need to click it – the service location's details will automatically display on the **Service Location Details**, **Service Location Operating Details**, **Child** and **Staff** tabs.

4. Update/record the service location's total operating weeks and hours as well as other service related information on the **Service Location Operating Details** tab.
 - If necessary, update the service location's operating hours that have been carried forward from the previous census.
 - Specify whether your service has a waitlist and if so, how many children aged 3 or above are on that list.
 - Indicate whether your service is an Aboriginal Community Controlled Organisation.
 - Advise whether your service is delivering an Aboriginal language program.
 - Advise whether your service participated in the free health and development checks for 4-year-olds through the NSW Government's Health and Development Check in Early Childhood Education (HDC) program. If instead your service offered health and development checks outside of the HDC program, you must provide the name of the organisation who provided the checks and the areas covered by those checks.
 - Indicate your service's standard daily fees before fee relief has been applied by age and equity cohorts.

5. Delete, update and add child records on the **Child** tab.
6. Add enrolment days for each child.
7. Add attendance days for each child.
8. Delete, update and add staff records on the **Staff** tab.
9. Add teaching days for each staff member who delivered an Early Childhood Education program.
10. Click the service's **Census Submission** tab. If all records have a **Complete** status, submit your census data.

More information about recording data

Health and development checks

Like last year, you are required to advise whether your service participated in the free health and development checks for 4-year-olds through the NSW Government's Health and Development Check in Early Childhood Education (HDC) program. Otherwise, if your service offered health and development checks outside of the HDC program, you must provide the name of the organisation who provided the checks and the areas covered by those checks.

For more information on the HDC program, see [Health and development checks in early childhood services](#).

Standard daily fees by age and equity

In the census, you must record your service's standard daily fees before fee relief has been applied by age and equity cohorts.

Your service's standard daily fees are the fees charged for up to 600 hours of enrolment, before any levies or other charges are added and/or before fee relief is applied.

The Start Strong for Community Preschools program guidelines and Mobile Preschool Funding Program guidelines state that children who are eligible for equity loading must have access to lower daily fees than children who are not eligible for equity loading. Enrolments eligible for equity loading refer to children from these targeted cohorts:

- Children with an Aboriginal and Torres Strait Islander background
- Children from low-income families
- Children with disability or additional needs.

Update your service details

If any of your service or service provider details (e.g. contact details) in ECCMS are out-of-date or incorrect, you should update these details before entering census data. To update these details, you must access your service provider and/or funding specification record(s) via the **Service Provider** and **Funding Specification** menu options. For more information, see the [ECCMS Service Provider Guide](#).

If you are unable to change service provider details in ECCMS yourself and need to amend any information, contact the department on 1800 619 113 or ecec.funding@det.nsw.edu.au.

Preschool Not Operational or not listed

If a preschool location has a **Census Status** of **Not Operational** you cannot enter or submit census data for this preschool.

You must contact the department on 1800 619 113 or email ecec.funding@det.nsw.edu.au for help if:

- an operational preschool is listed as **Not Operational**
- an operational preschool is not listed
- a preschool is not operational during the representative fortnight but is listed for data entry.

Have a backup plan

Only an SP Admin user of ECCMS can submit census data. Therefore, if your regular SP Admin user will be away for the recording or submitting of census data, it is important to nominate another staff member who can act in their absence. This staff member will need to be given SP Admin permissions by the department and have a myID linked to the department. For more information, see the [ECCMS web page](#) on the NSW Department of Education website.

To have the department set up a staff member as an SP Admin user or for general ECCMS login enquiries, phone the Information and Enquiries team on 1800 619 113 or email ecec.funding@det.nsw.edu.au.

Consent forms

Providers are required to collect completed consent forms from each staff member at the commencement of employment, and for each child upon commencement of enrolment.

Providers must arrange for parents/carers and staff to complete the consent form each year, as consent forms may be updated on a yearly basis. Providers should also have families complete a new form if any of the details in the original consent form require update or adjustment.

For links to the consent forms, see section 7.2 of the [2026 Start Strong for Community Preschools program guidelines](#) and section 7.1 of the [2026 Mobile Preschool Funding program guidelines](#).

Understand when ECCMS times out

ECCMS logs you out after 30 minutes of inactivity for security reasons. Although it may look like you're still logged in, you will need to log in again. Save your data regularly to avoid losing your work.

Online help

The ECCMS census function has two types of online help to assist you with data entry:

- **Tooltips** – click a **Help** icon  next to a field to display a description of what is required.
- **Detailed online help** – click a **Help** icon  on the top right corner of a window or section to display comprehensive instructions and explanations.

Enter data for the 2026 census

To complete the 2026 census, follow the steps in sections **1** to **12**.

In ECCMS, service location operating hours, child enrolment details and staff teaching days are interlinked. Therefore, to prevent having to re-enter data, you should first check, and if necessary, update the service location operating hours (carried over from the 2025 census). Next you can enter child and staff data in any order.

If you change a service’s operating details, including the hours, you should review the enrolment data to ensure it all remains correct.

Example: If you change a service location’s operating hours to “closed” on a day that has children enrolled and staff marked as teaching, the enrolment data will be deleted. Therefore, if later on you change the service location back to operating on that day, you will be required to re-enter child enrolment and staff teaching data.

1. Select a service

1. On the ECCMS menu, click **Census** to open the Preschool Census Service List.
2. If your organisation has more than one preschool service listed, click a service that you want to record census data for.
3. Otherwise, if your organisation has only one preschool service listed, you do not need to click it – the service’s details will automatically display on the **Main Details**, **Service Location** and **Census Submission** tabs.

Complete sections **2** to **12** for each service in the Preschool Census Service List.

2. Select a service location

1. Click the **Service Location** tab.

MAIN DETAILS		SERVICE LOCATION	CENSUS SUBMISSION			
Service Location Name	Address	Approval Capacity	Children Enrolled	Staff	Status	
Zen's Mobile Preschool Van 2	12 Gum Rd TELARAH NSW 2320	25	31	7	Incomplete	
Zen's Mobile Preschool Van 1	3 Maize St MAITLAND NSW 2320	20	26	5	Incomplete	

The **Service Location** tab shows a service location’s **Status** and the number of **Children Enrolled** (which may consist of new and/or carried over child records) and number of **Staff** (which may consist of new and/or carried over staff records).

2. If the service (e.g. a mobile service) has more than one service location listed, click a service location that you want to record census data for.

If the service has only one service location listed, you do not need to click it – the service location’s details will automatically display on the **Service Location Details**, **Service Location Operating Details**, **Child** and **Staff** tabs.

A centre-based service can only enter census data for one location.

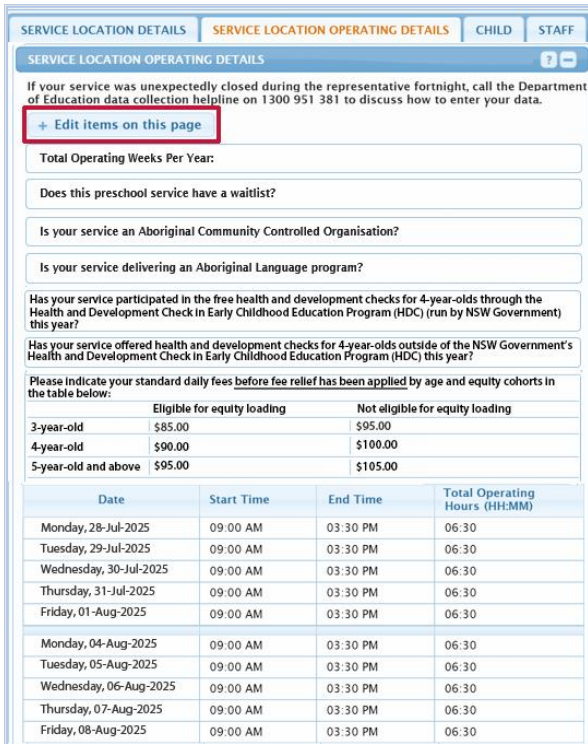

A mobile service that has more than one service location (i.e. venue) listed, must record census data by completing sections **3** to **12** for each service location that was operational during the representative fortnight.

3. Check service operating details

Check the service location’s total operating weeks and the operating hours that have been carried forward, and update these if they are incorrect.

New services who have not yet entered census data into ECCMS will have no rolled over data.

1. Click the **Service Location Operating Details** tab.

	Eligible for equity loading	Not eligible for equity loading
3-year-old	\$85.00	\$95.00
4-year-old	\$90.00	\$100.00
5-year-old and above	\$95.00	\$105.00

Date	Start Time	End Time	Total Operating Hours (HH:MM)
Monday, 28-Jul-2025	09:00 AM	03:30 PM	06:30
Tuesday, 29-Jul-2025	09:00 AM	03:30 PM	06:30
Wednesday, 30-Jul-2025	09:00 AM	03:30 PM	06:30
Thursday, 31-Jul-2025	09:00 AM	03:30 PM	06:30
Friday, 01-Aug-2025	09:00 AM	03:30 PM	06:30
Monday, 04-Aug-2025	09:00 AM	03:30 PM	06:30
Tuesday, 05-Aug-2025	09:00 AM	03:30 PM	06:30
Wednesday, 06-Aug-2025	09:00 AM	03:30 PM	06:30
Thursday, 07-Aug-2025	09:00 AM	03:30 PM	06:30
Friday, 08-Aug-2025	09:00 AM	03:30 PM	06:30

2. Click **Edit items on this page** to open the window.

If the **Definition of Operating Hours...** message displays, click **OK** to clear it.

3. Make sure the number of **Total Operating Weeks Per Year** is correct.

This number should only include weeks during which a service location is delivering a preschool program. The number must not include weeks when the service location is open only for care or administration.

4. For **Does this preschool service have a waitlist?**, select either **Yes** or **No**.

A waitlist is a maintained register or list of children who are waiting for enrolment or a place at your service that is not immediately available but may be in the future.

5. If you selected **Yes** for question 4, the **How many children aged 3 years or above are currently on the waitlist for this service?** question displays. In this field, type the number of children on the waitlist who are aged 3 or above.

Any waitlist numbers entered should be specific to this service location. If you have a central waitlist that covers multiple locations, you can divide the total number of children on the waitlist by your number of service locations, and then enter the resulting number for each service location.

6. For **Is your service an Aboriginal Community Controlled Organisation?**, select either **Yes** or **No**.

An Aboriginal Community Controlled Organisation (ACCO) is in alignment with the National Agreement on Closing the Gap. It is incorporated under relevant legislation and is not-for-profit. It is also controlled, operated and governed by Aboriginal and/or Torres Strait Islander people.

7. For **Is your service delivering an Aboriginal Language program?**, select either **Yes** or **No**.

An Aboriginal language program does not need to be funded by the NSW Department of Education, but should involve the teaching of one or more Aboriginal languages and dialects.

8. For **Has your service participated in the free health and development checks for 4-year-olds through the Health and Development Check in Early Childhood Education Program (HDC) (run by NSW Government) this year?**, select either **Yes** or **No**.

If you answer **Yes**, you are confirming that your service has had health professionals from your local health district provide health and development checks to 4-year-olds in 2026. However, if local health district professionals have not provided health and development checks, even if this is planned for the future, you must answer **No**.

9. For **Has your service offered health and development checks for 4-year-olds outside of the NSW Government's Health and Development Check in Early Childhood Education Program (HDC) this year?**, select either **Yes** or **No**.

If you answer **Yes**, you are confirming that your service has offered health and development checks to 4-year-old children in 2026 **outside** of the HDC program.

If you selected **Yes** for question 9, ECCMS displays two extra fields and you must complete questions 10 and 11. Otherwise, skip to 13.

10. In **Who is completing the check?**, type the name of the organisation that is offering health and development checks.
11. For **Please select all areas that are included in the check**, select as many areas as applicable.

If you selected **Other (please specify)** for question 11, ECCMS displays an additional field and you must complete question 12.

12. In **Specify the other areas of health checks that the organisation provides**, enter the other areas of health checks.
13. For **Please indicate your standard daily fees before fee relief has been applied by age and equity cohorts in the table below:**, type the relevant fee amounts in each column.
- In the **Eligible for equity loading** column, type the standard daily fee amount for children who are **3-year-old, 4-year-old and 5-year-old and above** and are eligible for equity loading.

Children from this targeted group include children with Aboriginal and Torres Strait Islander backgrounds, children from low-income families and/or children with an identified disability or additional needs who meet the evidence requirements given in [Appendix 1.1. of the 2026 2026 Start Strong for Community Preschools program guidelines](#) and [Appendix 1.1. of the 2026 Mobile Preschool Funding program guidelines](#).

If your service does not have a separate fee schedule for children who are eligible for equity loading, enter the same fee amount used for children who are not eligible for equity loading.

- In the **Not eligible for equity loading** column, type the standard daily fee amount for children who are **3-year-old, 4-year-old and 5-year-old and above** and are not eligible for equity loading.

Ensure you enter daily fees for all three age groups. If the same daily fee applies for different age groups, repeat the amount.

14. Make sure that the service's **Start Time** and **End Time** is correct for each day of the representative fortnight.

Start and end times should only be recorded for days where the following criteria are met:

- The service meets all of its obligations under the National Law and Regulations including compliance with staff child ratios for total enrolled preschool children during the operating hours.
- The service fee covers the total hours children are enrolled to attend.
- All children enrolled in the service on that day are able to attend for the full duration of the operating hours.
- Operating hours must only include the hours during which the preschool program is delivered at the approved location. Time spent transporting children to and from the approved location must not be included. However, occasional excursions that happen during normal operating hours can be included.

Hours must not be included where staff are employed outside operating hours for set up, pack up, training or staff meetings and children are not present.

Before and after care hours must not be included as these are not part of preschool operating hours and additional fees are usually charged.

If your service delivers long day care and community preschool under one service approval, only report the community preschool operating hours. Do **not** include any hours that are long day care and/or funded by the Child Care Subsidy (CCS).

15. To save any updates you have made, click **Save**.

4. Manage child records carried over

Repeat the following steps for each child record that was carried over from the 2025 census.

1. If a child **was not** enrolled during the 2026 representative fortnight, you must delete their record. See [Delete child records](#).
2. If a child **was** enrolled during the 2026 representative fortnight:
 - Check the child's details and if applicable, make any updates.

For detailed information about each of the child related fields, see [Add child records](#).

- Check that the **LBOTE Indicator** is correct. This year Aboriginal English is included as a Language Background Other Than English.
- Record whether the child requires English language assistance, and if so, what is the primary language that the child uses at home.
- Indicate whether the child receives fee relief.
- Type the **Average Daily fee during Representative Fortnight (\$)** charged for the child's enrolment at your service.

- Record whether the child received **Face to Face Supervision by Qualified Early Childhood Teacher**.
- Check the child's disability status is correct for this year and update it if necessary. Include any multiple disabilities, additional needs or health and/or medical needs.
- Add the child's enrolment day(s). See [Record a child's enrolment days](#).
- Add the child's attendance. See [Record a child's attendance](#).

5. Delete child records

Complete the following steps to delete records for children who were carried over from the 2025 census but were **not enrolled** during the 2026 representative fortnight at the current service location.

- Click the **Child** tab.

The list on the **Child** tab defaults to 200 child records. This keeps the list aligned for multiple deletions.

- Locate a child record that you want to delete, and at the start of the row, select the check box.
- Repeat step 2 until you have selected all the children that you want to delete.

If you accidentally click outside a check box, this will unselect any check boxes you have selected.

- At the top of the list, click **Delete Child**.

6. Add child records

Complete the following steps to add each child who was enrolled during the 2026 representative fortnight at the current service location, but whose record was **not carried forward** from the previous census.

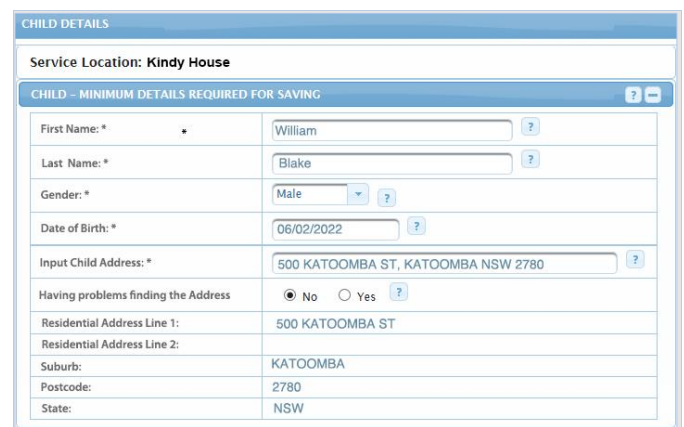

- Click the **Child** tab.

- Click **Add Child** to open the **Child Details** window.

The details in the top pane of the window (**Child – Minimum Details Required for Saving**) must be entered before you can save a child record.

The details in the bottom pane (**Child – Additional Details Required for Completion**) must be entered before a child record is complete.

- Type the child's **First Name** and **Last Name** in full.
- Select the child's **Gender** from the list.

5. Type the child's **Date of Birth** in dd/mm/yyyy format. Or select it in the calendar.
6. In **Input Child Address**, start typing the unit number (if applicable), street number and street name of the child's residential address, e.g. 5/34 Green Avenue. After you type seven characters, any potential address matches display in a dropdown list.

This address should be where the child normally resides; it should not be a P.O. Box address.

7. If the child's correct address displays, select it and then proceed to step **13**. Otherwise, if the child's address does not display, follow steps **8** to **12** to enter the address.
8. For **Having Problems Finding the Address**, select the **Yes** check box.

If you selected **Yes** for question **8**, ECCMS displays 4 extra fields.

9. In **Residential Address Line 1**, type the unit/street number and street name of the address where the child primarily lives, e.g. 5/34 Green Avenue.
10. If applicable, in **Residential Address Line 2**, type address details such as the building or property name, e.g. Green Point Towers.
11. Start typing the name of the child's residential **Suburb**, and then select it from the list.
ECCMS automatically inserts the correct **Post Code**.
12. For **State**, accept the default of **NSW**. Otherwise, select the appropriate state in the list.

If you change the state, you will need to reselect the suburb. Some suburb names (e.g. Surry Hills) occur in more than one state.

CHILD - ADDITIONAL DETAILS REQUIRED FOR COMPLETION	
Aboriginal or Torres Strait Islander Indicator:	Don't Know
Date First Enrolled:	06/02/2025
Low Income Family Indicator:	No
LBOTE Indicator:	No
English Language Assistance Required:	Yes
What is the primary language of the child used at home?	Other
If Other is selected, enter the language in the free-text box:	Norwegian
Triples/Quadruplets Indicator:	No
Does the child receive fee relief?	Yes
Average Daily Fee during Representative Fortnight (\$):	\$25.00
Face to Face Supervision by Qualified Early Childhood Teacher:	Yes
Does this child have a disability and/or additional needs:	No

13. For the **Aboriginal or Torres Strait Islander Indicator**, select the appropriate option.

A child is of Aboriginal and/or Torres Strait Islander origin if this is recorded on the child's enrolment form. The information on the enrolment form may have been obtained verbally from the child's parent or guardian.

14. Type the **Date First Enrolled** (i.e. when the child was first scheduled to attend your preschool service), in dd/mm/yyyy format. Or select it from the calendar.
15. For the **Low Income Family Indicator**, select **Yes** if the parent or legal guardian holds any one of the following cards issued by the Australian Government:
 - Health Care Card (where the child is a named dependent on the card)
 - Pensioner Concession Card (where the child is a named dependent on the card)
 - Veteran Card.

If the parent or guardian does not hold any of these cards, select **No**.

If the parent's or legal guardian's card has expired but was valid for a prior period during that same preschool year and they are still being charged the same fee as when their relevant card was valid, select **Yes** for the **Low Income Family Indicator**. Otherwise, if their card has expired and they are being charged the regular fee, select **No**.

The Australian Government has stated that Health Care Cards issued in the child's name only are not means tested. Therefore children with their own Health Care Card (e.g. a Foster Care Card or a Health Care Card for a disability) cannot be marked as **Yes**.

Services must keep a copy of Health Care Cards, Pensioner Concession Cards or Veteran Cards to show proof that they were valid at the time of the preschool census or for a prior period during that preschool year.

16. For the **LBOTE Indicator**, if the child has a Language Background Other Than English (LBOTE) including Aboriginal language, Aboriginal English, or augmentative or alternative language (such as sign language or non-formal gestures), select **Yes**. Otherwise select **No** or **Don't know**.

Select **Yes** for this indicator if a language other than English is spoken by the child, parents or other primary care givers (e.g. legal guardians, grandparents or relatives). Even if the child only speaks English, select **Yes** if a parent or care giver speaks another language.

17. For **English Language Assistance**

Required, if the child requires assistance with English language needs, such as an interpreter, special learning materials, visual aids, pictorials, non-formal gestures, or programs such as Boardmaker, or other types of support for spoken or sign language(s) or any other language resource such as Braille, select **Yes**. Otherwise select **No**.

If a child requires assistance with English language needs, this information must be recorded and available on file.

18. If the answer to question 17 was **Yes**, for **What is the primary language of the child used at home**, select the language that the child uses most in their home environment.

If you do not know the child's primary language, select **Other**. Then in the text box that displays, type the child's country of origin or ethnicity, if known.

If the child communicates using alternative language systems such as sign language, non-formal gestures, visual aids, pictorials or programs such as Boardmaker, or an iPad communication device or similar – select **Augmentative and Alternative Communication**.

If the child has more than one language other than English (i.e. is multilingual), select the language that is most used in the child's home environment.

The top 10 languages spoken in NSW are listed. However, if the child's primary language is not listed, select **Other**. Then in the text box that displays, type the child's primary language.

19. For the **Triplets/Quadruplets Indicator**, if the child is **not** from a higher order multiple birth (e.g. triplets, quadruplets, quintuplets or more); accept the default of **No**. Otherwise select **Yes**.

20. For **Does the child receive fee relief**, select **Yes** if the child receives fee relief under the Start Strong for Community Preschools program or Mobile Preschool Funding program at this service. Otherwise, select **No**.

Fee relief does not include any subsidies a child may receive through other agencies, programs or methods.

21. Type the **Average Daily fee during Representative Fortnight (\$)** charged for the child's enrolment at your service.

To obtain the average fee per day, calculate the total fees paid for the child for the preschool program over the representative fortnight, then divide this total by the number of days the child was enrolled during the representative fortnight. Count half days as 0.5 in the calculation. For example, if a child is enrolled for 2.5 days a week, this is a total of 5 days a fortnight. In addition, if your service charges other fees or levies that are non-optional for families (e.g. annual or per term levies, compulsory excursion fees) you must calculate the daily portion of these non-optional fees and add that to the child's average daily fee amount. Next you should apply any fee relief. **Note:** The average daily fee should be calculated **after** fee relief has been applied.

Some services may be able to reduce fees to \$0 when applying fee relief. If the child's family was charged no fees during the representative fortnight, type **0** in this field.

For example, if a child was enrolled for 15 hours or less a week and would usually be charged \$40 on average per day, there may be no out-of-pocket fees for the family.

For more detailed instructions and examples, see the online help on the **Child Details** window.

22. For **Face to Face Supervision by Qualified Early Childhood Teacher**, if the child received a preschool program for at least one hour per week during the representative fortnight that was delivered by a qualified early childhood teacher, select **Yes**. Otherwise select **No**.

A **qualified early childhood teacher** is a contact worker who is a degree qualified early childhood teacher who meets the requirements of the National Quality Framework for Early Childhood Education and Care (the National Quality Framework).

23. For **Does this child have a disability and/or additional needs?** – if the preschool has a record of the child's NDIS Reference number and/or a signed professional assessment on letterhead and/or a signed written diagnosis and/or developmental assessment on letterhead, and/or an approved application for High Learning Support Needs (HLSN) funding under the NSW Disability and Inclusion Program, select **Yes**. Otherwise select **No**.

If you selected **Yes** for question **23**, the **Disability Details** section displays and you must complete questions **24** to **31**. Otherwise, skip to step **4** of **7**. **Record a child's enrolment days.**

24. For **Primary Type of Disability and/or Additional needs**, select the child’s disability, additional need health and/or medical need from the list.

If the child has multiple disabilities and additional needs, you are able to select **up to 4** of these. To select a disability/additional need, either click the dropdown arrow on the right, scroll down the list, and then select the relevant check box – or start typing the name of the disability/additional need and when it displays, select the relevant check box. Repeat this for each disability/additional need.

Only select **Other** if no other option is applicable.

For ‘diabetes’, select **Metabolic disorders**.

DISABILITY DETAILS	
Primary type of Disability and/or Additional needs:	ADHD/ADD * Acquired Brain Injury * Apraxia (Motor)* ?
Evidence for Disability: ?	<input checked="" type="checkbox"/> NDIS Reference number: <input checked="" type="checkbox"/> Professional assessment/Written diagnosis <input checked="" type="checkbox"/> Approved application for High Learning Support Needs Funding (HLSN) under the NSW Disability and Inclusion Program
NDIS Reference number:	776543211 ?
Diagnosed or Assessed by (Full Name):	Dr John Dolittle ?
Profession / Role:	Paediatrician
Diagnosis or Assessment Date:	20/05/2023 ?
HLSN Application Number:	ABC776543888 ?

25. For **Evidence for Disability**, select as many check boxes as applicable. E.g. select **NDIS Reference number** if the child has been allocated an NDIS Reference number, and/or select **Professional assessment/Written diagnosis** and/or select **Approved application for High Learning Support Needs (HLSN) funding under the NSW Disability and Inclusion Program**.

26. For question **25**, if you selected the:

- **NDIS Reference number** check box, the **NDIS Reference number** field displays. Type the child’s 9 digit NDIS number in this field. Then if you did not select either of the other 2 check boxes, skip to step **31**.
- **Professional assessment/Written diagnosis** check box, ECCMS displays three extra fields and you must complete questions **27** to **30**. Otherwise, skip to **31**.
- **Approved application for High Learning Support Needs (HLSN) funding under the NSW Disability and Inclusion Program** check box, the **HLSN Application Number** field displays. Type the child’s 12 digit alphanumeric HLSN number in this field. The application must have been assessed as eligible in the 2026 calendar year.

You must complete all the fields that display after selecting a check box.

27. In **Diagnosed or Assessed by (Full Name)**, type the name of the person who did the diagnosis or assessment.

28. For **Profession / Role**, select the profession or role of the person who did the diagnosis or assessment.

If the profession or role is not listed, select **Other relevant professional (please specify)**. ECCMS displays an additional field and you must complete question **29**. Otherwise, skip to question **30**.

29. In **Please specify**, type the profession or role of the person who made the diagnosis or assessment.

30. Type the **Diagnosis or Assessment Date** (i.e. when the child was diagnosed or assessed) in dd/mm/yyyy format.
31. To add the child's enrolment days, proceed to step 4 of 7. **Record a child's enrolment days**. Otherwise, click **Save**.

Add a child who attends multiple mobile service locations

If a child attends multiple mobile service locations that are attached to the one service, you can enter the child's details once and then copy their details to other mobile service locations.

1. On the **Child Details** window, type the child's **First Name** and **Last Name** in full.
2. Click **Copy Child Detail**. (This button only displays when a mobile service has more than one service location.)

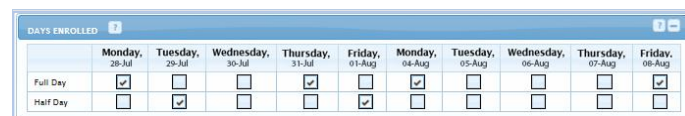

ECCMS copies the child's details into the window. However, details that are particular to the mobile service location will not be copied.

3. Check that the **Date First Enrolled**, **Average Daily Fee during Representative Fortnight (\$)** and **Supervision by Qualified Early Childhood Teacher** fields are entered and correct for this mobile service location.
4. Record the child's enrolment days and attendance. For full instructions, see [Record a child's enrolment days](#) and [Record a child's attendance](#).
5. Click **Save**.

7. Record a child's enrolment days

Complete the following steps to select enrolment days for each child who was enrolled during the representative fortnight at the current service location. This applies to children who were carried over from the 2025 census and to newly enrolled children.

1. Click the **Child** tab.
2. Locate the child record that you want to add enrolment days to, and click on the row to open the **Child Details** window.
3. If the record was carried over from the previous census, check whether the child's details are still correct and make any necessary changes. For information about each field, refer to [Add child records](#) or view the online help.

	Monday, 28-Jul	Tuesday, 29-Jul	Wednesday, 30-Jul	Thursday, 31-Jul	Friday, 01-Aug	Monday, 04-Aug	Tuesday, 05-Aug	Wednesday, 06-Aug	Thursday, 07-Aug	Friday, 08-Aug
Full Day	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Half Day	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

4. Under **Days Enrolled**, select the relevant check box for each day the child was enrolled during the representative fortnight. If the child was enrolled at the service location on a day for:
 - **more than half** of the service location's operating hours on that day, select **Full Day**
 - **half or less than half** of the service location's operating hours on that day, select **Half Day**.

If a service location is open for 4 hours or less on a day, only one check box will display for that day.

A child cannot be enrolled in a ‘full day’ and a ‘half day’ on the same day. However, a child can be enrolled in full day(s) and half day(s) on different days of the same week. For example, a child might be enrolled for a full day on Monday and a half day on Tuesday.

A ‘casual’ day is when a child attends the preschool in addition to their usual scheduled (i.e. enrolled) attendance. A ‘casual’ day must **not** be included in the census as a day enrolled.

- To proceed to record the child's attendance, see [Record a child's attendance](#). Otherwise to save your data and exit the window, click **Save**.

8. Record a child's attendance

Complete the following steps to select attendance days for each child who was enrolled during the representative fortnight at the current service location. This applies to children who were carried over from the 2025 census and to newly enrolled children.

- Click the **Child** tab.
- Locate the child record that you want to add attendance days to, and click on the row to open the **Child Details** window.

DAYS ATTENDED	Monday, 28-Jul	Tuesday, 29-Jul	Wednesday, 30-Jul	Thursday, 31-Jul	Friday, 01-Aug	Monday, 04-Aug	Tuesday, 05-Aug	Wednesday, 06-Aug	Thursday, 07-Aug	Friday, 08-Aug
Attended	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

- Under **Days Attended**, select the relevant check box for each day that the child attended the service location they were enrolled in.

A child's attendance data must only be added after the end of the representative fortnight.

A ‘make up’ day is a day of attendance to catch up on a previous absence (e.g. due to illness). A 'make up' day **must** be included in days enrolled and attended if it relates to an absence within the representative fortnight. However, a 'make up' day must **not** be included in days enrolled or attended if the ‘make up’ day relates to an absence outside the representative fortnight.

A ‘casual’ day, when a child attends the preschool in addition to their usual scheduled (i.e. enrolled) attendance, is not a ‘make up’ day and must **not** be included as a day attended.

- If you are finished entering the child's data, click **Save**.

9. Delete staff records

Complete the following steps to delete records of any staff members who were carried over from the 2025 census but were not employed at the current service location in the 2026 representative fortnight.

- Click the **Staff** tab.

First Name	Last Name	Main Role	Hours Worked in ECEP Delivery	Level of Highest Qualification in Early Childhood Education and Care	Education Field of Highest Qualification	Status
EMILY	BRONTE	Principal/ director/ coord	20	Bachelor degree pass (4 years or equivalent)	Teaching (early childhood related)	Incomplete
<input checked="" type="checkbox"/>	THOMAS	HARDY	0	Not applicable (No qualification)	Not applicable (no qualification in early education and care related field)	Incomplete

- Locate a staff member record that you want to delete, and at the start of the row, select the check box.
- Repeat step 2 until you have selected all the staff that you want to delete.
- At the top of the list, click **Delete Staff**.
- To the warning message, click **Yes**.

If you click **No**, the staff records will remain selected. If you want to de-select all of the records, click twice on the blue check box on the top left side. Otherwise, to de-select a certain record, click the check box at the front of the row to remove the tick, and then repeat this for any other staff record that you want to de-select.

10. Add staff details

Complete the following steps to add each staff member who was employed during the representative fortnight at the current service location, but whose record was **not carried forward** from the 2025 census.

1. Click the **Staff** tab.

First Name	Last Name	Main Role	Hours Worked in ECEP Delivery	Level of Highest Qualification in Early Childhood Education and Care	Education Field of Highest Qualification	Status
EMILY	BRONTE	Principal/ director/ coor	20	Bachelor degree pass (4 years or equivalent)	Teaching (early childhood related)	Incomplete
JAMES	JOYCE	Non contact worker	0	Not applicable (No qualification)	Not applicable (no qualification in early education and care related field)	Incomplete

2. Click **Add Staff** to open the **Staff Details** window.
3. Type the staff member’s **First Name** and **Last Name** in full.
4. Select the staff member’s **Gender** from the list.
5. Type the staff member’s **Date of Birth** in dd/mm/yyyy format.
6. For the **Aboriginal or Torres Strait Islander Indicator**, if the staff member identifies as Aboriginal and/or Torres Strait Islander, select the appropriate option. Otherwise select **Neither Aboriginal nor Torres Strait Islander origin**.

7. For the **Language Other than English (LOTE) Indicator**, if the staff member uses another language other than English (including Aboriginal languages), select **Yes**. However, if the staff member learnt another language (other than English) as a hobby or professionally, select **No**.

It is not necessary for the staff member to be able to write in the other language.

If applicable, select **Don’t Know** or **Prefer not to answer**.

8. Select the staff member’s **Employment Status** in the list.
9. In the **Level of Highest Qualification in Early Childhood Education and Care (ECEC)** list, select the highest qualification in early childhood education and care that the staff member has attained.

Otherwise, select **Not applicable (No qualification)**. This will ‘grey out’ the next two fields and you can skip to question 12.

10. In the **Education Field of Highest Qualification** list, select the field in which the staff member has attained their highest qualification relevant to early childhood education and care.
11. In **Year of Completion**, type the year when the staff member completed this qualification, e.g. 2005.
12. If the **Staff Member is Currently Completing an ECEC Qualification**, select **Yes**. Otherwise, accept the default of **No**.

If you selected **Yes** for question 12, ECCMS displays three extra fields and you must complete questions 13 to 15. Otherwise, skip to 16.

13. In **Level of Qualification in ECEC Under Completion**, select the appropriate qualification.

14. In the **Education Field of Qualification Under Completion** list, select the field of education of the qualification currently being completed.

15. Type the **Expected Year of Completion** for this qualification, e.g. 2026.

16. For **Degree Qualified (or Equivalent) Early Childhood Teacher**, select either **Yes** or **No**.

A 'degree' qualified teacher meets the requirements of the National Quality Framework for Early Childhood Education and Care. An equivalent qualification includes early childhood teaching qualifications, as defined by ACECQA and/or recognised skills and experience.

17. In the **Main Role** list, select the staff member's usual job/role at the service.

18. In the **Main Type of Work Performed** list, select the type of work that the staff member spends most of their time carrying out.

19. In **Number of Hours Worked in Early Childhood Education Program Delivery During Representative Fortnight**, type the number of hours, rounded to the nearest whole number, that this staff member spent delivering preschool program(s) during the representative fortnight.

Enter hours as whole numbers. For example, if a staff member worked 1 hour and 30 minutes, enter 2. If they worked 1 hour and 15 minutes, enter 1. (ECCMS will ignore any decimal points, e.g. entering 1.5 will result in 15.)

These hours only relate to face-to-face delivery of a preschool program. They do not include preparation time or other unrelated work.

20. If the staff member spent one or more hours delivering face-to-face preschool programs, to enter their teaching days, proceed to step 4 of 11 **Add a staff member's teaching days**. Otherwise, if they worked **0** hours, click **Save**.

Repeat steps 2 to 20 for each staff member who was employed at the service location during the representative fortnight.

Add a staff member who works at multiple mobile service locations

If a service has a staff member who works at multiple service locations attached to a mobile service, you can enter the staff member's details once and then copy their details to other mobile service locations.

1. On the **Staff Details** window, type the staff member's **First Name** and **Last Name** in full.
2. Click **Copy Staff Detail**. (This button only displays when a mobile service has more than one service location.)

ECCMS copies the staff member's details into the window. However, details that are particular to a service location will not be copied.

3. Check that the staff member's **Main Role** and **Main Type of Work Performed** are correct for this service location.
4. Enter other details such as hours worked and if applicable, assign teaching days. For full instructions, see [Add staff details](#).
5. Click **Save**.

11. Add a staff member’s teaching days

Complete the following steps to add teaching days for staff who spent time delivering preschool programs at the service location during the 2026 representative fortnight. This applies to staff who were carried over from the 2025 census and to newly added staff.

1. Click the **Staff** tab.
2. Locate the staff record that you want to add teaching days to, and click on the row to open the **Staff Details** window.
3. If the record was carried over from the previous census, check whether the staff member’s details are still correct and make any necessary changes. For information about each field, see [Add staff details](#) or view the online help.
4. Under **Teaching Days**, for every day that the staff member spent time delivering preschool programs at the service location during the representative fortnight, select the appropriate check box.

Monday, 28-Jul	Tuesday, 29-Jul	Wednesday, 30-Jul	Thursday, 31-Jul	Friday, 01-Aug	Monday, 04-Aug	Tuesday, 05-Aug	Wednesday, 06-Aug	Thursday, 07-Aug	Friday, 08-Aug
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

5. If you are finished entering the staff member’s data, click **Save**.

12. Submit the census data

The 2026 census data can only be submitted if all records have a **Complete** status.

A **service** is **Complete** when all of its service locations are **Complete**. (Many services will only have one service location.)

A **service location** is **Complete** when:

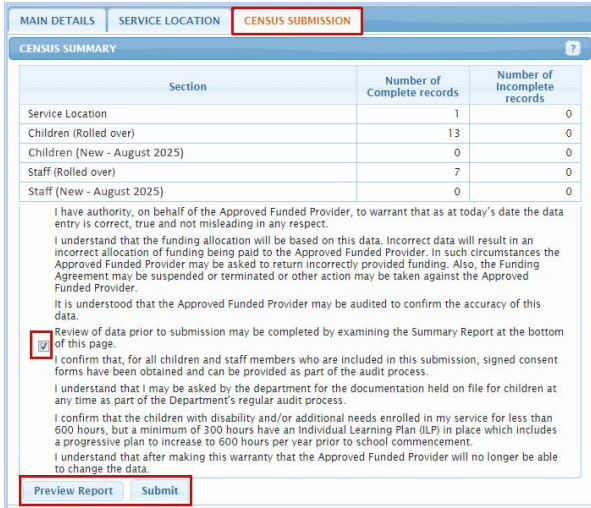

- the operating weeks, days and hours have been recorded
- answers have been provided about whether the service has a waitlist, whether it is an Aboriginal Community Controlled Organisation and if it delivers an Aboriginal language program, whether the service provides health and development checks for 4-year-olds and what the standard daily fees are, and
- there is at least one complete record for a child (either in **Children (Rolled over)** or **Children (New - August 2026)**) and,
- there is one complete record for a staff member (either in **Staff (New - August 2026)** or **Staff (Rolled over)**).

In addition, all children and staff must each have a **Complete** status.

A staff record is **Complete** when all required fields (marked with an asterisk *) are complete. A staff member does not have to be assigned to any teaching days, e.g. if they are a non-contact worker and did not deliver an Early Childhood Education program.

A child record is **Complete** when all fields are complete and the child is enrolled for at least half a day during the representative fortnight. This applies to child records carried over from the previous census and to newly added child records.

1. Click the service’s **Census Submission** tab.

Section	Number of Complete records	Number of Incomplete records
Service Location	1	0
Children (Rolled over)	13	0
Children (New - August 2025)	0	0
Staff (Rolled over)	7	0
Staff (New - August 2025)	0	0

2. Ensure there is a **0** for each item in the **Number of Incomplete** records column. (This means there are no incomplete records.)
3. Ensure the numbers for all items in the **Number of Complete records** column are correct.

For example, if 36 children whose records were carried over from the previous census were also enrolled at the service location during the 2026 representative fortnight, 36 must display in the **Children (Rolled over)** row.

Likewise, if 20 new child records were added for this 2026 census, 20 must display in the **Children (New - August 2026)** row.

4. Click **Preview Report** to preview the Census Summary Report and check what you have entered.
5. If applicable, make any necessary changes.
6. If you are sure all the details are correct, read the declaration statement carefully and select the check box.
7. Click **Submit**.

On the **Main Details** tab, in the **Census Submission** section, the **Census Submission Status** will change to **Submitted** and your name and today’s date will display.

Census Status	Last Updated Date	Census Summary Report
Not Operational	31/07/2025 12:05 PM	
Draft	08/08/2025 01:43 PM	
Submitted	21/08/2025 10:42 AM	Download
Draft	13/08/2025 12:42 PM	

8. In the **Census Summary Report** column, click the **Download** button, and then either view the report on screen or save it to your computer for your records.

Congratulations - you’ve finished entering the 2026 census data in ECCMS!

13. Follow up

Department staff will review the submitted census data to check for possible errors and confirm the ECCMS census function is working as intended. The department may need to contact you to confirm or correct aspects of the data you have submitted.
