NSW Department of Education

Are you the next WorldSkills regional champion?

2026 WorldSkills regional competition registrations are now open.

WorldSkills is more than just a competition, it's an opportunity for students to shine, gain recognition, and potentially advance to the national level!

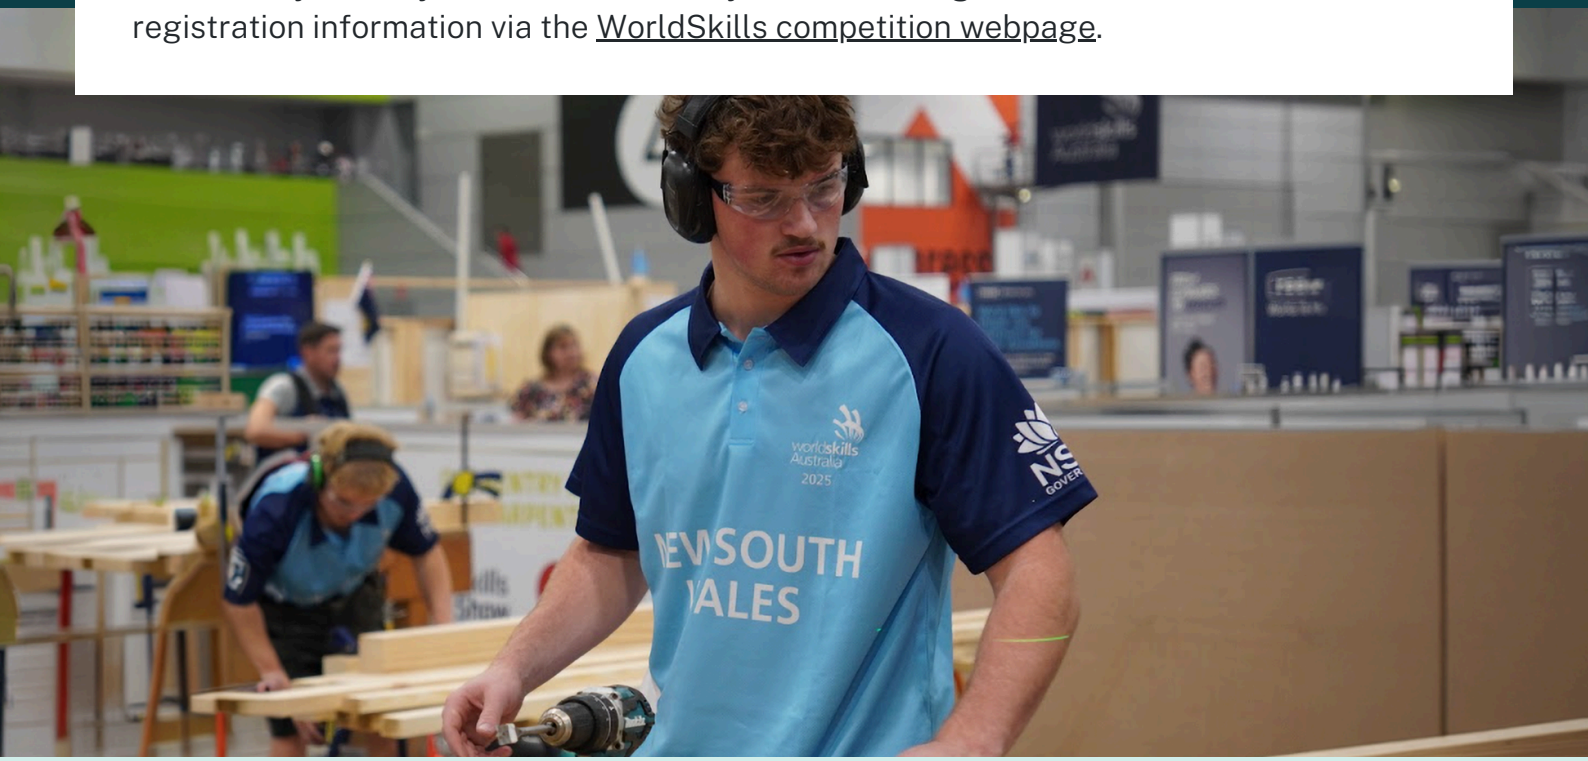

It's an opportunity for students to test their knowledge and skills learnt in their chosen field against their peers.

How to get involved

Teachers and career advisers can support student registration for regional competitions in Term 3 and 4 2026.

Teachers can also volunteer to accompany their students to WorldSkills events.

Learn how you and your senior secondary students can get involved, and access registration information via the WorldSkills competition webpage.
