

Restorative practice

‘Restorative practice’ is a professional learning course available to all **NSW public school staff**. It is comprised of **7 modules** and was developed in collaboration with leading experts in the field of restorative practice. The course provides **3 hours of quality assured, free, on-demand eLearning** designed to provide a foundational understanding of whole school teaching and learning approaches that encourage supportive and respectful behaviour.

Module 1 – Restorative practice: an overview

Module 2 – Developing a restorative school culture

Module 3 – Restorative practice and neuroscience

Module 4 – Group discussions: circles

Module 5 – Dialogue strategies for building relationships

Module 6 – Restorative problem-solving conversations

Module 7 – Effective restorative questioning

The course offers:

- Informative videos and testimonials from both primary and high schools offering real-world insights for staff and schools.
- Downloadable resources and links to support implementation
- On-demand, flexible and self-paced eLearning
- An optional Leader’s guide for collaborative professional learning is included to enable school leaders to use the eLearning modules to support a whole school approach to restorative practice.

Schools that prioritise a restorative approach to relationships across the school community can improve school culture and reduce the frequency of incidents of inappropriate behaviour.
