

Crash

Words and music by Barbara Stacey

1. Well I was driving my new car
minding my own business.

I was driving my new car along the road.

Well I was driving my new car
minding my own business

when along came a truckie with a load.

We had a crash, oh dash!

I'm glad I had my seat belt on!

2. Well I was driving my new car
way out in the country

I was driving my new car out in the bush.

Well I was driving my new car
way out in the country

when a 'roo came and gave my car a push.

We had a crash, oh dash!

I'm glad I had my seat belt on!

3. Well I was driving my new car
north along the freeway

I was driving my new car

without a fuss.

Well I was driving my new car

north along the freeway

when our car was nudged quite firmly by a bus!

We had a crash, oh dash!

I'm glad I had my seat belt on!
